SECTION 1 - ADMINISTRATIVE INFORMATION

1.1 RESPONSIBILITY FOR TORFP AND TO AGREEMENT

The TO Procurement Officer has the primary responsibility for the management of the TORFP process, for the resolution of TO Agreement scope issues, and for authorizing any changes to each TO Agreement. See Section 2.10 for information on change orders.

The TO Manager has the primary responsibility for the management of the work performed under each TO Agreement; administration functions, including issuing written directions; ensuring compliance with the terms and conditions of the CATS Master Contract; and, in conjunction with each selected Master Contractor (TO Contractor), achieving on budget/on time/on target (e.g., within scope) completion of the Scope of Work (SOW).

1.2 TO AGREEMENT

Up to three Master Contractors, one for each Independent Verification & Validation (IV&V), may be selected to conduct the work defined in Section 2 - SOW. A specific TO Agreement, Attachment 3, will then be entered into between the State and the selected TO Contractor(s), which will bind the TO Contractor(s) to the contents of its TO Proposal(s), including the price proposal(s).

1.3 TO PROPOSAL SUBMISSIONS

Master Contractors may submit a TO Proposal encompassing one, two, or all three IV&Vs. Master Contractors submitting a TO Proposal for multiple IV&Vs must submit a single response, **bearing the number of one, two, or all three the individual IV&Vs (See Section 3 for TO Proposal format and submission instructions).**

The TO Procurement Officer will not accept submissions after the date and exact time as stated on the Key Information Summary Sheet. The time will be local time as determined by DBM's e-mail system time stamp. Each TO Proposal is to be submitted via e-mail. The "subject" line in the e-mail submission shall state the appropriate IV&V number (s). The first attachment will be the TO Proposal technical response to this TORFP encompassing and bearing the individual number(s) for one, two or all three IV&Vs. Subsequent attachments will be the financial response or responses to this TORFP, one for each IV&V.

The proposal documents requiring a signature, Attachment 2 - MBE Forms D-1 and D-2 and Attachment 4 Conflict of Interest Affidavit and Disclosure, must be submitted as .PDF files with the signatures clearly visible. Separate sets of these documents must be submitted and marked by IV&V number for each IV&V encompassed in the technical response.

1.4 MINORITY BUSINESS ENTERPRISE (MBE)

A Master Contractor that responds to this TORFP shall complete, sign, and submit all required MBE documentation (Attachment 2 - MBE Forms D-1 and D-2) at the time it submits its TO Proposal. The MBE goal of 30 percent shall apply to each IV&V. Separate and complete MBE documentation is required for each individual IV&V encompassed in the technical response. **Failure of the Master Contractor to complete, sign, and submit all required MBE documentation at the time it submits its TO Proposal will result in the State's rejection of the Master Contractor's TO Proposal.**

1.5 eMARYLANDMARKETPLACE FEE

Code of Maryland Regulations (COMAR) 21.02.03.06 requires that each Master Contractor that wins a TO Agreement under this TORFP pay a fee to support the operation of eMarylandMarketplace. The fee will be due on each TO Agreement that exceeds \$25,000. The applicable fee will be based on each TO Agreement value, including any options. Each TO Contractor shall pay the fee as provided by COMAR 21.02.03.06 and in accordance with guidelines issued by the Maryland Department of General Services (DGS). A copy of COMAR 21.02.03.06 and the guidelines issued by DGS can be found on the eMarylandMarketplace website at www.eMarylandMarketplace.com.

The price of each TO Proposal shall include the appropriate fee as per the COMAR 21.02.03.06 fee schedule. Fees may not be quoted as a separate add-on price. A total TO Agreement value that is other than an even dollar amount will be rounded to the nearest whole dollar to determine the appropriate fee level. For example, a total TO Agreement value of \$50,000.49 will be rounded to \$50,000 and a Level 1 fee will apply. A total TO Agreement value of \$50,000.50 will be rounded to \$50,001 and a Level 2 fee will apply.

1.6 CONFLICT OF INTEREST

Each TO Contractor awarded a TO Agreement shall provide Information Technology (IT) consulting services for DBM, and must do so impartially and without any conflicts of interest. Each Master Contractor shall complete and include a Conflict of Interest Affidavit and Disclosure form included as Attachment 4 to this TORFP, with its TO Proposal. If the TO Procurement Officer makes a determination that facts or circumstances exist that give rise to or could in the future give rise to a conflict of interest within the meaning of COMAR 21.05.08.08A, the TO Procurement Officer may reject a Master Contractor's TO Proposal under COMAR 21.06.02.03B.

Master Contractors should be aware that the State Ethics Law, State Government Article, §15-508, might limit the selected Master Contractor's ability to participate in future related procurements, depending upon specific circumstances.

1.7 NON-DISCLOSURE AGREEMENT

Certain system documentation may be available for Master Contractors to review at the State agencies hosting the projects identified for IV&V review as described in this TORFP. Master Contractors who wish to review such documentation will be required to sign the Non-Disclosure Agreement (Master Contractor) form included as Attachment 8 to this TORFP. Please contact the TO Procurement Officer of this TORFP to coordinate an appointment with the agencies if interested.

In addition, certain documentation may be required to be obtained by TO Contractors awarded TO Agreements in order to fulfill the requirements of TO Agreements. The TO Contractors, employees and agents who review such documents will be required to sign, including, but not limited to, a Non-Disclosure Agreement (TO Contractor) form included as Attachment 9.

1.8 LIMITATION OF LIABILITY

Pursuant to Section 28(C) of the CATS Master Contract, the limitation of liability ceiling is hereby reduced as follows: Contractor's liability per claim under this TORFP shall not exceed the total TO Agreement amount established for each respective IV&V.

1.9 ORAL PRESENTATIONS

Master Contractors will be required to make oral presentations to State representatives. Significant representations made by a Master Contractor during the oral presentation must be reduced to writing. All such representations will become part of the Master Contractor's proposal and are binding, if the contract is awarded. The Procurement Officer will notify the Master Contractors of the time and place of oral presentations. Oral presentations will occur within one week after the proposal due date.

SECTION 2 - SCOPE OF WORK

2.1 PURPOSE AND APPROACH

2.1.1 Purpose

DBM seeks to select a Master Contractor experienced in IT consulting to perform an IV&V for each of the following Major Information Technology Development Projects:

- 1) Student Financial Aid System (SFAS), sponsored by the Maryland Higher Education Commission (MHEC);
- 2) Maryland Pension Administration System (MPAS), sponsored by the State Retirement Administration (SRA); and
- 3) Agency Wide Smart Card (AWSC), sponsored by the Maryland Department of Transportation (MDOT), Mass Transit Administration (MTA);

The purpose of each IV&V is to assess the health of the project according to the objectives listed respectively, in Sections 2.2.1, 2.3.1, and 2.4.1. In the first phase of each IV&V, the TO Contractor(s) shall research and develop a written report and live presentation of findings based on the IV&V objectives. The resulting *IV&V Draft Findings Report* deliverable captures project disposition along with potential solutions to deficiencies. Findings shall describe project strengths, weaknesses, and any corrective actions recommended by the TO Contractor(s).

In a second, optional phase of each IV&V, DBM may task the TO Contractor(s) to develop an IV&V Corrective Action Plan (CAP) in collaboration with the agency and DBM. If exercised, the second phase also requires the TO Contractor(s) to monitor and report on agency compliance with the CAP and provide on-site assistance to support agency corrective actions. As warranted by DBM, a third phase may be exercised to continue monitoring agency compliance with the CAP by the TO Contractor. These and all other IV&V project deliverables are described in detail in Section 2.5 Deliverables and Time of Performance.

DBM may make up to three awards, one each per IV&V. Separate and distinct Notices to Proceed (NTP) shall be given for each IV&V and may be staggered. The MBE goal of 30 percent shall apply to each IV&V.

2.1.2 Approach

The approach for each IV&V shall include independent research, stakeholder interviews, and the review and analyses of project files and documentation. In working with project stakeholders, the TO Contractor(s) shall strive to minimize or avoid any impact on the target project schedule. The TO Contractor(s) shall assign an "IV&V Project Manager" who shall be the TO Contractor's lead resource on one or multiple IV&Vs. The IV&V Project Manager must be certified by the Project Management Institute (PMI) as a Project Management Professional (PMP). The TO Contractor(s) shall provide the deliverables as described in Section 2.5 Deliverables and Time of Performance.

In executing the IV&V and developing IV&V deliverables, the TO Contractor(s) shall apply recognized project management best practices and industry standards according to PMI. Specifically, with regard to the treatment of findings on State agency project management processes, the TO Contractor(s) shall formulate findings in terms consistent with the PMI's Project Management Body of Knowledge (PMBOK). Where an evaluation of the technical feasibility of an IT solution is required, the TO Contractor(s) shall apply the Software Engineering Institute's Capability Maturity Model or other recognized industry standard.

2.2 IV&V 1 – Student Financial Aid System (SFAS)

2.2.1 Objectives of the IV&V

The TO Contractor will assess the SFAS project focusing on:

- A) Project management processes consistent with: 1) The project management knowledge areas described in the PMBOK with emphasis on Time, Scope, Cost, and Risk Management; and 2) Application of the State of Maryland's System Development Life Cycle (SDLC) methodology;

- B) Capability of the MHEC Project Manager, or designee, to report accurately on project financials including total project costs associated with satisfying the phases of the SDLC;
- C) Project governance meaning the extent to which the agency has effectively: 1) Defined roles and expectations among all internal and external stakeholders; 2) Implemented an appropriate flow of project information among stakeholders; 3) Instituted a process for review and response to project issues including escalation to the executive sponsor; and 4) Instituted a process for executive approvals (for example, sign-off on SDLC documents) at appropriate project milestones; and
- D) Technical feasibility of the IT solution to conform to project requirements.

2.2.2 Project Description

The SFAS will provide MHEC's Office of Student Financial Assistance (OSFA) with an efficient and consumer-friendly web-based operations support system to be used for: 1) initial application; 2) processing of new and renewal awards, student notification, and student award acceptance; 3) notifying higher education institutions and legislators of awards and awarding information; 4) verifying awards; 5) paying funds for awards and reconciling accounts; 6) the maintenance, tracking, fulfillment and repayment of service obligations associated with certain programs and 7) internet access for financial aid status for students and financial aid administrators.

2.2.3 IT Solution

The SFAS will use current web-based technology. It will be based upon the agency standards of Microsoft products. This includes the data base back end using a Microsoft SQL server and the front end using a browser interface supported by current development languages. If necessary, an internal web site could be initiated on current equipment to support the web service for internal users. Outside customers will be serviced by the two internet web sites currently in operation at the agency. All of these technologies are in use currently at the Commission. These technologies exist in the MTAF and all are classified as current. These technologies are in general use by many State agencies. The agency plans to procure SQL licenses through the Maryland Education Enterprise Consortium (MEEC) Education Select Program.

2.2.4 Project Status as of April 2007 (updated status to be provided upon IV&V NTP)

A dedicated Project Manager was acquired through the CATS contract and commenced work in mid-December 2006. The PM delivered a System Boundary Document and Risk Management Plan in mid-January 2007. An initial project management plan was completed in February 2007 and remains to be finalized. A Microsoft SharePoint web site has been established as a repository for project information. Bi-weekly project team meetings and monthly contract progress reviews are ongoing. A team charged with drafting a CATS Task Order Request for Proposals (TORFP) for system development was formed and held its kick-off meeting in late January. The TORFP draft is currently in progress.

2.2.5 Project Stakeholders

- A) MHEC Office of Student Financial Assistance;
- B) MHEC Office of Information Systems;
- C) Maryland higher education institutions; and
- D) Students and parents seeking financial aid.

2.2.9 Interviews

The TO Contractor shall interview relevant parties as part of the IV&V to include:

- E) MHEC Executive Sponsor;
- F) MHEC Project Manager;
- G) MHEC Chief Information Officer;

- H) MHEC Chief Financial Officer;
- I) The Contractor's Project Manager;

2.3 IV&V 2 – Maryland Pension Administration System (MPAS)

2.3.1 Objectives of the IV&V

The TO Contractor will assess the MPAS project focusing on:

- A) Project management processes consistent with: 1) The project management knowledge areas described in the PMBOK with emphasis on Time, Scope, Cost, and Risk Management; and 2) Application of the State of Maryland's SDLC methodology;
- B) Capability of the SRA Project Manager, or designee, to report accurately on project financials including total project costs associated with satisfying the phases of the SDLC;
- C) Project governance meaning the extent to which the agency has effectively: 1) Defined roles and expectations among all internal and external stakeholders; 2) Implemented an appropriate flow of project information among stakeholders; 3) Instituted a process for review and response to project issues including escalation to the executive sponsor; and 4) Instituted a process for executive approvals (for example, sign-off on SDLC documents) at appropriate project milestones; and
- D) Technical feasibility of the IT solution to conform to project requirements.

2.3.2 Project Description

This project is the first step of a multi-step program to modernize the technologies that support the agency pension administration business processes. This program will develop a new information system, the Maryland Pension Administration System (MPAS). This project is MPAS Step One: Modernizing Legacy Technology (MPAS-1). This project will address the current limitations present in the Legacy Pension System (LPS) that make it difficult, risky, and time-consuming to implement major changes required by pension law changes. The project has two goals: 1) Implement a new agile technology architecture that can adapt more easily to changes in business requirements, and 2) Recreate the existing LPS functions in the new architecture. The expected outcome is a new pension administration system that can do what our LPS does now in an architecture that can be easily adapted and expanded based on future needs. Completion of MPAS-1 will create a solid foundation for future projects in the modernization program that will address other identified business needs, including data quality, business process improvement, and online services for customers.

2.3.3 Project IT Solution

MPAS is being developed as a Microsoft .NET/SQL Server application. The development and production environments are to be hosted on Windows servers at the SRA headquarters. SRA is working to identify a NetworkMaryland site for the test/disaster recovery environment. The agility desired from MPAS-1 requires that the solution have at least these characteristics: 1) a relational database management system to improve the ease of change to the data structures (Microsoft SQL Server), 2) a multi-tier application design that segments the application into at least three logical tiers [data, logic, presentation] to improve modularity and ease of maintenance (Services Oriented Architecture using XML web services), 3) the application be composed of reusable components to ease maintenance, promote reuse, and ease reconfiguration of software components as needs require (Microsoft .NET components using Microsoft BizTalk Server for process orchestration), and 4) the extraction and storage of the business rules in a centralized location to permit the ease of retrieval and modification of business rules (ILOG Business Rules Management System).

2.3.4 Project Status as of April 2007 (updated status to be provided upon IV&V NTP)

The MPAS-1 application will be developed incrementally over a two-year period. A project kick-off meeting occurred in July 2006. Development of the system hardware / software infrastructure and SQL database commenced in October 2006 and remains in progress. Implementation into production is planned to occur in three phases, with the first phase scheduled for December 2007. The project is scheduled for completion by October 2008. SRA will have the option for ongoing vendor post-implementation support services through June 2010.

2.3.7 Project Stakeholders

Project stakeholders include:

- A) SRA Administrative Division management and staff;
- B) SRA Information Systems Division management and staff; and
- C) Legacy Pension System users;
- D) Participating employers;
- E) Retirees and active system members.

2.3.9 Interviews

The TO Contractor shall interview relevant parties as part of the IV&V to include:

- A) SRA Executive Sponsor;
- B) SRA Project Manager;
- C) SRA Administrative Division Director;
- D) SRA Chief Information Officer;
- E) SRA Chief Financial Officer;
- F) The Contractor's Project Manager;
- G) Individuals identified post-NTP by SRA, e.g., during the IV&V Kick-off meeting; and
- H) Other individuals identified independently by the TO Contractor(s) during the IV&V.

2.4 IV&V 3 – Agency Wide Smart Card (AWSC)

2.4.1 Objectives of the IV&V

The TO Contractor will assess the AWSC project focusing on:

- A) Project management processes consistent with: 1) The project management knowledge areas described in the PMBOK with emphasis on Time, Scope, Cost, and Risk Management; and 2) Application of the State of Maryland's SDLC methodology;
- B) Capability of the MTA Project Manager, or designee, to report accurately on project financials including total project costs associated with satisfying the phases of the SDLC;
- C) Project governance meaning the extent to which the agency has effectively: 1) Defined roles and expectations among all internal and external stakeholders; 2) Implemented an appropriate flow of project information among stakeholders; 3) Instituted a process for review and response to project issues including escalation to the executive sponsor; and 4) Instituted a process for executive approvals (for example, sign-off on SDLC documents) at appropriate project milestones; and

- D) Project disposition, to include:
 - a. Current status;
 - b. Issues, and
 - c. Potential project outcomes.

2.4.2 Project Description

This project will implement a bus fare collection system and fully integrated rail system for the MTA subway, light rail and Maryland Rail Commuter (MARC) lines to provide an Automatic Fare Collection System (AFCS). The AFCS will seamlessly link magnetic tickets and Smart Cards to all modes of mass transit throughout the State of Maryland, Washington DC, and Northern Virginia. There are three related MTA projects: Agency-wide Smart Card, LOTS Smart Card Upgrade and Bus Upgrade / Revenue Collection, that are incremental parts of a “Regional” system formerly referred to as the Transit Pass System. Instead of purchasing new fare boxes and smart card reader equipment in a combined effort, the equipment was procured via three separate contracts with the same contractor.

2.4.3 Project IT Solution

The solution is to engineer and install smart card fare collection equipment directly on MTA transit systems, and install a central computer with a transactional data base. The fare collection equipment collects and transmits transit data to the central computer. The central computer also will provide credit/debit clearing, control of fare tables and business rules, and tracking and recording of maintenance activities and schedules.

2.4.4 Project Status as of April 2007 (updated status to be provided upon IV&V NTP)

This project is in the implementation phase of the SDLC. Light Rail Transit (LRT) ticket vending machine (TVM) installation is 100% complete and the Metro installation of TVM is 60% complete. Metro installation stopped as of 7/05/06 until reliability issues were resolved in both LRT and Metro. MTA and the contractor continue to discuss corrective action to address the reliability issues during weekly meetings. MTA requested the contractor to extend the suspension of work for MARC an additional 90 day as of 8/16/06. As of April 2007, MTA had requested the contractor to re-start the Metro installations. The contractor agreed on condition MTA complete certain tasks and MTA was reviewing that request as of April 2007. MTA continues testing software revisions in the MTA lab in the meantime. Full acceptance of the system was slated for the end of July 2006 and is now tentatively scheduled for Sep. 2007.

2.4.7 Project Stakeholders

- A) The MARC, MTA Bus, MTA Light Rail, and MTA Metro transit systems;
- B) The MTA revenue collection department;
- C) The MTA planning department;
- D) The MTA maintenance department; and
- E) Users of MTA transit systems.

2.4.9 Interviews

The TO Contractor shall interview relevant parties as part of the IV&V to include:

- F) MTA Executive Sponsor;
- G) MTA Project Manager;
- H) MTA Chief Information Officer;
- I) MTA Chief Financial Officer;
- J) MTA Revenue Collection Department Director;
- K) MTA Planning Department Director;

- L) MTA Maintenance Department Director;
- M) The Contractor’s Project Manager;
- N) Individuals identified post-NTP by MTA, e.g., during the IV&V Kick-off meeting; and
- O) Other individuals identified independently by the TO Contractor(s) during the IV&V.

2.5 DELIVERABLES AND TIME OF PERFORMANCE

For each written deliverable described in the table below, the TO Contractor(s) shall submit to the TO Manager an electronic copy compatible with Microsoft Office 2003. With each deliverable, the TO Contractor shall submit a Deliverable Product Acceptance Form (DPAF) included as Attachment 7.

Written deliverables defined as draft documents must demonstrate due diligence in meeting the scope and requirements of the associated final written deliverable. A draft written deliverable may contain negligible text errors, but must:

- A) Be presented in a format appropriate for the subject matter and depth of discussion;
- B) Be organized in a manner that presents a logical flow of the deliverable’s content;
- C) Represent relevant, factual information that is current and accurate at the time of submittal; and
- D) Represent significant completeness towards the final written deliverable.

Upon receipt of a deliverable, the TO Manager shall review the deliverable to validate completeness and quality in meeting requirements. TO Manager shall document acceptance or rejection of the deliverable on the accompanying DPAF provided by the TO Contractor(s) as described above.

In the event of deliverable rejection, the TO Contractor(s) shall correct the identified deficiencies or non-conformities within five working days from rejection. At the discretion of the TO Manager, and as evidenced by the TO Manager’s written waiver, subsequent project tasks may not continue until deficiencies are rectified and the deliverable is formally accepted by the TO Manager as provided herein. Accepted deliverables shall be invoiced within 30 days in the applicable invoice format (See Section 2.9).

When presented for acceptance, a written deliverable defined as a final document must satisfy the scope and requirements of this TORFP for that deliverable. Final written deliverables shall not contain structural errors such as poor grammar, misspellings or incorrect punctuation, and must:

- A) Be presented in a format appropriate for the subject matter and depth of discussion;
- B) Be organized in a manner that presents a logical flow of the deliverable’s content; and
- C) Represent relevant, factual information that is current and accurate at the time of submittal.

The required deliverables and required time frames for completion based on NTP are defined in the table below. Deliverables may be submitted earlier than indicated, with the written approval of the TO Manager.

TO CONTRACTOR MBE REPORTING REQUIREMENTS

CATS TORFP

F10P7200__

These instructions are meant to accompany the customized reporting forms sent to you by the TO Manager. If, after reading these instructions, you have additional questions or need further clarification, please contact the TO Manager immediately.

1. As the TO Contractor, you have entered into a TO Agreement with the State of Maryland. As such, your company/firm is responsible for successful completion of all deliverables under the TO Agreement, including your commitment to making a good faith effort to meet the MBE participation goal(s) established for this TORFP. Part of that effort, includes submission of monthly reports to the State regarding the previous month's MBE payment activity. Reporting forms D-5 (TO Contractor Paid/Unpaid MBE Invoice Report) and D-6 (Subcontractor Paid/Unpaid MBE Invoice Report) are attached for your use and convenience.
2. The TO Contractor must complete a separate form D-5 for each MBE subcontractor for each month of the TO Agreement and submit one copy to each of the locations indicated at the bottom of the form. The report is due not later than the 15th of the month following the month that is being reported. For example, the report for January's activity is due not later than the 15th of February. With the approval of the TO Manager, the report may be submitted electronically. Note: Reports are required to be submitted each month, regardless of whether there was any MBE payment activity for the reporting month.
3. The TO Contractor is responsible for ensuring that each subcontractor receives a copy (e-copy and/or hard copy) of form D-6. The TO Contractor should make sure that the subcontractor receives all the information necessary to complete the form properly, i.e., all of the information located in the upper right corner of the form. It may be wise to customize form D-6 (upper right corner of the form) for the subcontractor the same as the form D-5 was customized by the TO Manager for the benefit of the TO Contractor. This will help to minimize any confusion for those who receive and review the reports.
4. It is the responsibility of the TO Contractor to make sure that all subcontractors submit reports not later than the 15th of each month regardless of whether there was any MBE payment activity for the reporting month. Actual payment data is verified and entered into the State's financial management tracking system from the subcontractor's D-6 report only. Therefore, if the subcontractor(s) do not submit their D-6 payment reports, the TO Contractor cannot and will not be given credit for subcontractor payments, regardless of the TO Contractor's proper submission of the form D-5. The TO Manager will contact the TO Contractor if reports are not received each month from either the prime TO Contractor or any of the identified subcontractors. The TO Contractor must promptly notify the TO Manager if, during the course of the contract, a new MBE subcontractor is utilized.

FORM D-1

CERTIFIED MBE UTILIZATION AND FAIR SOLICITATION AFFIDAVIT

Offeror shall complete and submit a separate Form D-1 (Certified MBE Utilization and Fair Solicitation Affidavit) with each TO Technical Proposal for which it proposes an IV&V. If the Offeror fails to submit this Form D-1 with the TO Technical Proposal for each IV&V proposed, the TO Procurement Officer shall determine that any TO Proposal for which the Form D-1 was not submitted is not reasonably susceptible of being selected for award.

In conjunction with the offer submitted in response to TORFP No. F10P7200__, I affirm the following:

1. I acknowledge the overall certified MBE participation goal of ___ percent. I have made a good faith effort to achieve this goal.

OR

After having made a good faith effort to achieve the MBE participation goal, I conclude I am unable to achieve it. Instead, I intend to achieve an MBE goal of _____ percent and request a waiver of the remainder of the goal. If I am the apparent TORFP awardee, I will submit written waiver documentation that complies with COMAR 21.11.03.11 within 10 business days of receiving notification that our firm is the apparent low bidder or the apparent awardee.

2. I have identified the specific commitment of each certified MBE by completing and submitting an MBE Participation Schedule (Attachment D-2) with the TO Technical Proposal.
3. I acknowledge that the MBE subcontractors/suppliers listed in the MBE Participation Schedule will be used to accomplish the percentage of MBE participation that I intend to achieve.
4. I understand that if I am notified that I am the apparent TO awardee, I must submit the following documentation within 10 working days of receiving notice of the potential award or from the date of conditional award (per COMAR 21.11.03.10), whichever is earlier.
 - (a) Outreach Efforts Compliance Statement (Attachment D-3)
 - (b) Subcontractor Project Participation Statement (Attachment D-4)
 - (c) MBE Waiver Documentation per COMAR 21.11.03.11 (if applicable)
 - (d) Any other documentation required by the TO Procurement Officer to ascertain the offeror's responsibility in connection with the certified MBE participation goal.

If I am the apparent TORFP awardee, I acknowledge that if I fail to return each completed document within the required time, the TO Procurement Officer may determine that I am not responsible and therefore not eligible for TORFP award. If the TORFP has already been awarded, the award is voidable.

5. In the solicitation of subcontract quotations or offers, MBE subcontractors were provided not less than the same information and amount of time to respond as were non-MBE subcontractors.

I solemnly affirm under the penalties of perjury that the contents of this paper are true to the best of my knowledge, information, and belief.

These services shall be provided in accordance with the Master Contract, this TO Agreement, and the following Exhibits, which are attached and incorporated herein by reference. If there is any conflict among the Master Contract, this TO Agreement, and these Exhibits, the terms of the Master Contract shall govern. Any work performed by the TO Contractor in excess of the not-to-exceed ceiling amount of the TO Agreement without the prior written approval of the TO Manager is at the TO Contractor's risk of non-payment. See Section 2.10 Change Orders of the TORFP.
- 4.2 Payments to the TO Contractor shall be made as outlined Section 2 - Scope of Work of the CATS TORFP, but no later than thirty (30) days after the TO Requesting Agency's receipt of an invoice for services provided by the TO Contractor, acceptance by the TO Requesting Agency of services provided by the TO Contractor, and pursuant to the conditions outlined in Section 4 of this Agreement.
